Know your jog to head from your jog to foot?

[Click here](#) to complete the
CPISC finishing or bindery survey.

If you know about spine creep and cross-overs, or that line-ups happen in printing and hockey, then we need your help.

The Canadian Printing Industries Sector Council (CPISC) has developed Skill Standards for people working in [finishing and bindery](#).

But before the new standards are released, we need [validation](#) and [feedback](#) from knowledgeable people in the industry.

Because the Skill Standards outline what a person working in finishing and bindery should know and be able to do on the job, it is important we get feedback from industry employers and employees.

All you need to do is spare a small amount of time to complete a survey on the standards. To access and complete the finishing or bindery surveys, [click here](#).

Please forward this to colleagues in the industry who may also be interested in validating the finishing and bindery skill standards.

Thank you for your participation!
