Give your feedback on the new industry pre-press skill standards

[Click here](#) to give your feedback now!

National Skill Standards are being developed for the printing and graphic communications industry.

Standards for people working in **pre-press** are nearing completion, but before they are finished we need **validation** and **feedback** from the industry.

Because the Skill Standards outline what a person should know and be able to do on the job it is important that employers and employees give us feedback about them.

All you need to do is spare a small amount of time to complete a survey on the standards.

To access and complete the survey [click here](#).

Please forward this to colleagues in the industry who may also be interested in validating the pre-press skill standards. All feedback must be received **by February 2**. Thank you for your participation!
